SUMMARY

Management consultant with 7 years advising financial services and energy clients, specializing in physical climate risk, energy transition, and climate-related financial disclosure (TCFD, IFRS S2). Translates climate hazards into quantified financial impact.

EDUCATION

Columbia University, MS Sustainability Management, New York Completed Dec 2026

Chulalongkorn University, BA Economics, Bangkok Sep 2014 - Dec 2018

- Exchange student, Sophia University & Meiji University, Tokyo

WORK EXPERIENCE

Research Fellow, Climate Knowledge Initiative, Columbia Business School Sep - Dec 2026

- Co-authoring an oil and gas transition analysis with Prof. Gernot Wagner across five majors (Exxon, Aramco, TotalEnergies, OMV, Ørsted), covering energy demand, Scope 1-3 emissions, methane abatement costs and cost of capital; built 20+ slides on policy levers for the CBS deck "Transitioning Oil and Gas".
- Turned IEA, McKinsey and Ember data into investor insights on oil vs. gas demand peaks and transition risk.

ESG Fellow, EDF Climate Corps, BrandSafway May - Aug 2026

- Analyzed 85 operational sites with a risk index combining hazard exposure, operational criticality and incident history.
- Built a financial model tracing storm disruption from first warning to full recovery, converting disrupted days into dollars; tested on five 2024 storms, it showed about $20M in potential hurricane-related revenue exposure in 2024 alone.
- Delivered a risk index and dashboard giving the company a prioritized starting point for resilience investment.

Teaching Assistant, Columbia University, School of Professional Studies (SUMA) May - Dec 2026

- Supported 2 graduate courses: attended all sessions, graded assignments, managed Canvas, answered student questions.

Management Consultant, Project Manager, Accenture Solutions, Thailand Aug 2018 - Sep 2026

- Managed multi-stream ESG and digital transformation engagements for financial services and energy clients, integrating CSRD/ISSB reporting readiness and driving 40% portfolio growth.
- Evaluated SAP Sustainability Control Tower and Salesforce Net Zero Cloud, identifying Scope 1-3 GHG data gaps and delivering executive briefs that shaped CSRD-aligned client roadmaps.
- Delivered large-scale digital transformations in Southeast Asia, including RPA-led reconciliation (75% cycle-time reduction) and a 15M-user migration with zero downtime.

Pro Bono Strategy Consultant, NYPace Consulting Sep - Dec 2025

- Built cash-flow and scenario models for mission-driven organizations to assess financial risk and short-term funding resilience.

Founder and COO, Luca Phone Rental Service, Thailand May 2023 - Dec 2025

- Founded circular-economy phone rental serving 2,000+ customers and $55K revenue, quantifying Scope 1-3 via LCA.

PROJECTS (COLUMBIA UNIVERSITY, 2025 - 2026)

- **Physical Climate Risk Modeling, SIRI Practicum (2026):** Project Manager; built a hazard-to-impact template translating building-level hazard metrics into quantified impacts across asset archetypes (offices, warehouses, data centers).
- **ESG-Screened Valuation, Vistra Corp (2025):** 5-year scenario DCF integrating 12 ESG indicators to assess decarbonization.
- **Sustainability Reporting & LCA (2025):** GRI materiality screening for Farmer Fridge (15 topics); cradle-to-grave LCA.
- **Capstone, City of West Palm Beach (2026):** Led KPI framework (6 KPIs) and dashboard for workforce housing program.

LEADERSHIP

- Vice President, Sustainability Student Association (SUMASA), Sep 2025 - Dec 2026: led events for 600+ attendees.
- Vice President, Columbia Sustainable Finance Professional Network (CSFPN), Sep - Dec 2026.
- Founder, GreenerMyBiz, 2024 - Present: built CSRD/ISSB-aligned ESG frameworks for SMEs.
- Sustainability Initiative Lead, Accenture Thailand, 2023 - 2025: led ESG analysis across 5 offices; won Marcomms Award.

SKILLS

Certificates: CFA Climate Risk, Valuation & Investing Certificate; GRI Professional Certificate. **Sustainability & ESG:** physical and transition risk, NGFS scenarios, TCFD, IFRS S1/S2, CSRD, SASB, GRI, GHG Protocol, LCA. **Technology & analytics:** SAP Sustainability Control Tower, Salesforce Net Zero Cloud, Bloomberg ESG, SQL, Python, Power BI, Excel. **Languages:** Thai (native), English (fluent), Japanese (conversational).
